Medical Specialties Distributors, LLC (MSD) Announces Curlin Pump Service Training Program for MSD Technician Team

Stoughton, MA May 12, 2009 - MSD announced today its collaboration with Curlin Medical Inc., a subsidiary of Moog Inc., (an innovative medical technology company), to employ a custom IV infusion pump service training repair program for the company's more than 50 biomedical service technicians. Custom tailored by Curlin, the program will certify MSD biomedical technicians across the US to fully repair and service the popular Curlin 4000CMS ambulatory infusion pump.

"For the six months, we have worked hand-in-hand with Curlin to develop a custom service development program to allow MSD technicians to perform full repair services for the Curlin 4000CMS ambulatory infusion pump," said Dennis Beatty, director of operations for MSD.

Jim Milostan, MSD's director of biomed procurement and OEM development states "This partnership further demonstrates our ability to adapt and connect our ISO-certified service expertise with our manufacturer partner's innovative technology, enabling the expansion of MSD's value-based biomedical service programs."

The program will provide MSD's technicians with ongoing training to enhance and update the extensive knowledge they already possess, while further developing their expertise in the medical device repair industry. MSD builds its reputation on high quality service, integrity, and responsiveness to our customers' needs. Rapid turnaround on customer-owned medical equipment is a major company focus.

ABOUT CURLIN MEDICAL, INC.: A subsidiary of Moog Inc., Curlin Medical is an innovative medical technology company that develops and manufactures solutions for infusion therapy and pain management. As a well established, leading medical equipment enterprise, we are dedicated to safely managing the flow of fluids and information, continuously improving the quality and performance of infusion and pain management systems. Using a combination of disposable and electronic ambulatory pumps and genuine management software technology, Curlin Medical not only improved the outcome of the infusion process and narrowed medication errors, but also reduced the operating costs

ABOUT MEDICAL SPECIALTIES DISTRIBUTORS, LLC (MSD): In December 2005, MSD acquired the assets of Medical Specialties Distributors, Inc., a company that had previously serviced the alternate-site market place since 1984. MSD continues to be a primary distributor of med surg product and biomedical equipment into the alternate-site marketplace. Recently, MSD launched a major initiative into the acute care market to support the equipment needs of hospitals nationwide. MSD's additional services include formulary development, online ordering, equipment management and tracking, and patient direct delivery programs. MSD is an authorized distributor for most of the healthcare industry's leading group purchasing organizations and is also ISO 9001:2000 & ISO 13485:2003 Certified.
